CriticalCare Elite

Protect your finances from the impact of a critical illness
Why CriticalCare Elite?

Your chances of surviving a critical illness are higher today than ever before. That’s good news. But the cost of care and treatment coupled with the potential for loss of income could take a toll on your finances. CriticalCare Elite can help you be prepared for an unexpected critical illness or condition.

You can choose from three coverage amounts: $10,000, $20,000 or $30,000

Lump sum payments are paid directly to you at first diagnosis of one of the covered critical illnesses or conditions below:

Definitions of each covered illness or condition can be found on the last page of this brochure.

*These benefits are each payable only once per covered person. If one or more of these benefits are paid, the remaining amount payable will be the original face amount reduced by all prior benefit payments.

On the policy anniversary following attainment of age 75, the face amount of all benefits will be restated as 50% of the remaining amount payable.

The covered person’s coverage terminates when 100% of the face amount has been paid.

Waiting Period

No benefits will be paid for a specified critical illness diagnosed during the first 30 days following any covered person’s effective date of coverage. The waiting period will not apply to any specified critical illness caused by an accident.

If the date of diagnosis of any covered person’s specified critical illness occurs during the waiting period, the insured may either return this policy and receive a full return of all the premiums or continue the coverage to provide payment of benefits for the other covered specified critical illnesses for the first two years. After two years from the effective date of coverage, a condition diagnosed during the waiting period will again be covered.
Wellness Benefit Included
The plan pays $75 per calendar year for a covered person to have one of these preventive tests or routine exams:

- Mammography
- Colonoscopy
- Thermography
- Flexible Sigmoidoscopy
- PSA (Blood Test for Prostate Cancer)
- Bone Marrow Testing
- Chest X-Ray
- Serum Protein Electrophoresis
- EKG
- Breast Ultrasound
- Fasting Blood Glucose Test
- Pap Smear
- CA 15-3 for Breast Cancer
- Hemocult Stool Analysis
- Cholesterol & Diabetes Screening
- CA 125 for Ovarian Cancer
- Blood Test for Triglycerides
- CEA Blood Test for Colon Cancer

This benefit is payable once per covered person per calendar year and two times per family per calendar year.

Limited Benefit—Outline of Coverage
READ YOUR POLICY CAREFULLY. This outline of coverage provides a brief description of some of the important features of your policy. THIS IS NOT THE INSURANCE CONTRACT, AND ONLY THE ACTUAL POLICY PROVISIONS WILL CONTROL. The policy sets forth, in detail, the rights and obligations of any covered person and USAble Life. It is, therefore, important that you READ YOUR POLICY CAREFULLY. This is a limited benefit policy and is designed to provide coverage ONLY when certain losses occur as a result of the specified critical illnesses as defined below and more fully in the policy. This policy does not provide for basic hospital, basic medical-surgical or major medical expenses. This policy provides benefits only if the date of diagnosis of specified critical illness is while the policy is in force for the covered person so diagnosed AND after the waiting period has been satisfied by that covered person. Important: Benefits received under this policy may be taxable. You should consult your personal tax advisor to determine whether or not payments received are subject to taxation.

Exceptions and Limitations

EXCEPTIONS — WHAT WE WILL NOT PAY FOR:
This policy pays only for loss resulting from specified critical illnesses or surgeries as defined in the policy. We will not pay benefits for a specified critical illness or surgery that occurs as a result of the following:

1. Conditions other than the specified critical illnesses or surgeries defined in the policy.
2. The covered person being diagnosed with a specified critical illness during the waiting period, unless the specified critical illness is caused by an accident.
3. The covered person voluntarily participating or attempting to participate in an illegal activity.
4. The covered person intentionally causing a self-inflicted injury.
5. The covered person committing or attempting to commit suicide, whether sane or insane.
6. The covered person's voluntary involvement in any period of armed conflict, even if it is not declared.
7. Surgeries performed outside of the United States or its Territories.
8. **Other Exclusions:** We will not pay the Specified Critical Illness Benefit for the following:
   (a) Cerebral symptoms due to transient ischemic attack (TIA), migraine, cerebral injury resulting from trauma or hypoxia, and vascular disease affecting the eye, optic nerve, or vestibular functions.
   (b) All skin cancers, unless there is evidence of metastasis or the tumor is a malignant melanoma of greater than 1.5 mm maximum thickness as determined by histological examination using the Breslow method.
   (c) All tumors which are histologically described as pre-malignant or non-invasive (including cervical dysplasia CIN-1, CIN-2 and CIN-3), except carcinoma in situ.
Pre-Existing Conditions Limitations for Certain Conditions

The benefits of the policy will not be payable for any loss caused by a pre-existing condition during the first 24 months the policy is in force. After this 24-month period, however, loss due to such conditions will be payable unless specifically excluded from coverage. This 24-month period is measured from the effective date of coverage for each covered person. A pre-existing condition means a specified critical illness which is diagnosed or treated within 24 months prior to the effective date of coverage for each covered person. Conditions which are: (a) fully disclosed to us on the application; and (b) not excluded or limited by us are not considered pre-existing conditions.

Renewability and Continuation

This policy is guaranteed renewable during the covered person's lifetime. USAble Life may change the premium rate, but only if the rate is changed for all policies and purchased riders in the covered person's state.

This policy will not be issued to anyone 65 years of age or over on the initial effective date. If the covered person purchases the policy prior to his or her 65th birthday, he or she may continue coverage after age 65 as long as he or she continues to timely pay the premium by the due date or during the 31 days that follow.

Coverage for a covered person's spouse will terminate at the time of divorce. However, coverage for a covered person's spouse can be converted upon divorce or the covered person's death.

Definitions

Amyotrophic Lateral Sclerosis (Lou Gehrig's Disease) – a progressive wasting of motor neurons of the brain and spinal column.

Balloon Angioplasty, Stent or Laser Relief Obstruction Procedures – therapeutic procedures used to correct narrowing or blockage of one or more coronary arteries.

Cancer – disease characterized by the spread of malignant cells. Cancer must be positively diagnosed with histopathological confirmation by a medical practitioner. (See Exceptions and Limitations)

Carcinoma in situ – disease characterized by malignant neoplasm of epithelial origin that is confined to the area in which it was discovered. (See Exceptions and Limitations)

Coronary Artery Bypass Surgery – a major surgical procedure requiring median sternotomy to correct narrowing or blockage of one or more coronary arteries with bypass grafts.

End stage Renal Disease (ESRD) – chronic irreversible failure of both kidneys to function which requires at least weekly hemodialysis or peritoneal dialysis or kidney transplantation.

Heart Attack – characterized by diagnosis of the death of a portion of the heart muscle resulting from inadequate blood supply.

Major Organ Transplant – human to human organ transplant of the liver, heart, lung, pancreas or bone marrow from a donor to the covered person.

Quadriplegia – the complete, irreversible paralysis and loss of use of both upper and lower limbs without severance.

Stroke – the result of a cerebrovascular event. Stroke must result in permanent neurologic deficit measured three months or more after the event and result in a score of 3 or higher on the Modified Rankin Scale for stroke outcome. There must also be clear evidence on a CT, MRI, or similar appropriate imaging technique that a stroke has occurred, and either: (a) infarction of brain tissue; or (b) intracranial or subarachnoid hemorrhage. These definitions provide a brief description of the specified critical illnesses covered by your policy. Only the actually policy definitions will control.
