It's Your Choice

Networks are important. When you visit a doctor or hospital that belongs to your health plan network, you save money. And so does everyone in your health plan.

Your plan lets you choose any doctor or hospital for your care. But if you choose a doctor or hospital that is not in your network, you pay more on your own. And raise costs for everyone in your health plan.

Know your network. Check your member ID card and your network directory. In an emergency, always go to the closest hospital. But for regular care, use your network directory. For other ways to keep your health care costs down, see your Benefits Manager or visit www.bcbst.com.
