

If you are taking a medication that is not on the Limited Formulary, check the chart below to find lower-cost alternatives covered by your benefit plan. Different drugs are available to treat the same problems, so talk with your doctor about which ones might work for you. Generic equivalents, which have the same chemical formula as their brand-name counterparts, are listed in bold type.

The list below includes some of the most popular brand-name drugs not covered by the Limited Formulary. It's important to remember other drugs not listed below may not be covered by your plan. Check the Limited Formulary Preferred Drug List on [bcbst.com](http://bcbst.com) or call Customer Service at the phone number listed on your BlueCross BlueShield of Tennessee member ID card for the most up-to-date information.
