BlueCross BlueShield of Tennessee's Specialty Pharmacy Program designates between provider-administered specialty medications and self-administered specialty products.

Provider-Administered Specialty Pharmacy Products

Provider-administered specialty pharmacy products are ordered by a provider and administered in an office or outpatient setting.

To obtain Prior Authorization for provider-administered specialty drugs (as noted below), your network physician must call BlueCross BlueShield of Tennessee at 1-800-924-7141.

All Specialty Pharmacy drugs are limited to a 30-day supply. Certain Specialty Pharmacy drugs may have additional quantity limits. Check the Quantity Limitations list on bcbst.com for more information.

^{PA} This drug requires prior authorization before dispensing/administration.

^{ST1} This drug requires Step Therapy. Member must have tried and failed Somavert.

^{ST-2} These drugs require Step Therapy. You must be resistant or intolerant to imatinib (Gleevec) for this medication to be covered.

* Some plans allow these provider-administered drugs to process through the pharmacy claims system with a written prescription and may require prior authorization. Check your Evidence of Coverage for specific benefit information. Your physician must obtain prior authorization for these drugs by contacting Caremark at 1-877-916-2271.

This list is subject to change throughout the year. Drug coverage may vary depending on the benefit plan.
Check your Evidence of Coverage for specific benefit information.
