

## Medical Emergency Diagnosis Code Listing

(New or Deleted Codes Effective October 1, 2009)

*This list is for informational purposes only, and is not a binding or definitive list of covered conditions, since medical conditions that are true emergencies change from time to time. It is not a guarantee of coverage; coverage depends on the available benefits and eligibility at the time services are rendered. It is for use only with the CoverTN program. When filing claims, providers should use the most accurate codes for the condition being treated - it is fraud against the State of Tennessee and BlueCross BlueShield of Tennessee to intentionally use a code for a covered condition when the treatment provided is for a non-covered condition.*

**CoverTN does not provide benefits for any services related to pregnancy, including but not limited to, pregnancy related medical emergencies such as ectopic pregnancies or spontaneous abortions. These services should be covered under the CoverKids HealthyTNBabies component of the Cover Tennessee program. To assist pregnant CoverTN women with enrollment in the HealthyTNBabies program, please refer to the coverkids.com online application or contact CoverKids Member Service, 1-888-325-8356. (Non-covered maternity codes are highlighted)**
