

At BlueCross BlueShield of Tennessee, Inc. we remain committed to working with our providers to ensure quality service to our members. It is our intent to make resources available to our providers that will help in this endeavor.

BlueCross BlueShield of Tennessee has adopted the Global Strategy for the Diagnosis, Management, and Prevention of Chronic Obstructive Pulmonary Disease as our recommended best practice reference for the management of chronic obstructive pulmonary disease. BlueCross BlueShield of Tennessee attests that the text and format of these compendia have not been altered in any way, nor is this adoption to be construed as a legal or required standard of care.

BlueCross BlueShield of Tennessee has created a direct link from our Web site to the guideline. We hope this will be both convenient and helpful to you in caring for your patients with chronic obstructive pulmonary disease. Paper copies of the guidelines are available upon request by calling 1-800-924-7141, extension 7282.
