

At BlueCross BlueShield of Tennessee, Inc. we remain committed to working with our providers to ensure quality service to our members. It is our intent to make resources available to our providers that will help in this endeavor.

BlueCross BlueShield of Tennessee has adopted the ACC/AHA Guidelines for the Management of Patients with ST-Elevation Myocardial Infarction as our recommended management of patients with ST-elevation myocardial infarction Best Practice Reference. These guidelines were authored by the American College of Cardiology (ACC) and the American Heart Association (AHA). BlueCross BlueShield of Tennessee attests that the text and format of these compendia have not been altered in any way, nor is this adoption to be construed as a legal or required standard of care.

With permission from the ACC/AHA, BlueCross BlueShield of Tennessee has created a direct link from our Web site to the guidelines. We hope this will be both convenient and helpful to you in caring for your patients with ST-elevation myocardial infarction. Paper copies of the guidelines are available upon request by calling 1-800-924-7141, extension 6705.
