## PREFACE

The following list includes medications that are covered by BlueCross BlueShield of Tennessee plans with the Standard Control Choice with Advanced Control Specialty Formulary, which is available through CVS Caremark®, an unaffiliated company that administers your pharmacy benefits on behalf of BlueCross BlueShield of Tennessee.

This isn't a complete list of covered medications, and inclusion on the list doesn't guarantee coverage.<sup>1</sup> You must have a valid prescription from a licensed health provider, and in some instances, prior authorization from BlueCross to receive coverage for these medications. Some medications may also be subject to other pharmacy management programs, such as step therapy or quantity limitations, or be considered specialty medications.

Special note for opioid containing products: The quantity of opioid product prescribed (including those that are combined with acetaminophen, aspirin, or ibuprofen) will be limited to up to 90 morphine milligram equivalents (MME) per day based on a 30 day supply. Members who are opioid-naïve will be required to use an immediate-release (IR) formulation before moving to an extended-release (ER) formulation and will be subject to quantity limit restrictions.

## DRUG TIERS

Drug tiers determine your cost share (or copay) for a drug. Drugs on lower tiers have lower cost shares, and drugs on higher tiers have higher cost shares.

Tier 1: Generic drugs.

Tier 2: Preferred brand-name drugs.

Tier 3: Non-preferred brand-name drugs.

Tier 4: Preferred specialty drugs.

Tier 5: Non-preferred specialty drugs.

## LEGEND

### Symbol Name

**NDC** National Drug Code - Drug products are identified by unique numerical product identifiers which identify the manufacturer, strength, dosage form, formulation and package size.

**OTC** Over the counter - Product may be covered with a prescription from your doctor.

**PA** Prior Authorization - Prior authorization is a review that is required for some medications. Your doctor will need to provide information on why they are prescribing the medication for you.

**PA\*** If Quantity Limit is exceeded, Prior Authorization may apply.

**PA\*\*** If Step Therapy requirements are not met, Prior Authorization may apply.

**QL** Quantity Limit - A quantity limit is the highest amount of medication covered by your plan for a period of time (for example, 30 tablets per month).

**ST** Step Therapy - Step therapy is a defined set of conditions that must be met prior to a drug being covered.

1. Not all medications listed are covered by all prescription plans. Check your benefit materials for details.
