

POST-HOSPITALIZATION MENTAL ILLNESS FOLLOW-UP

Easy access to follow-up care within seven days of discharge can dramatically reduce readmissions for patients hospitalized for mental health issues.

What is the quality measure?

This measure focuses on your patients ages 6 and older who have been hospitalized for treatment of certain serious mental health disorders and require clinical **follow-up within seven days of discharge** via:

- + Outpatient visit
- + Intensive outpatient encounter
- + Partial hospitalization with a mental health practitioner

What can you do to improve this quality measure?

1. Schedule follow-up visits within seven days.
2. Share information about established patients with hospital staff to ensure your patient's discharge needs are met.
3. Make every effort to accommodate a follow-up visits within seven days if you are contacted about patient follow-up.
4. Follow-up with "no-shows" and attempt to reschedule.

SAMPLE DIAGNOSES:

Dementia
Schizophrenia
