This notice is to advise you of information regarding the TennCare Pharmacy Program.

Please forward or copy the information in this notice to all providers who may be affected by these processing changes.

This notice is being sent to summarize the upcoming PDL changes for the TennCare pharmacy program. We encourage you to read this notice thoroughly and contact SXC’s Technical Call Center (866-434-5520) should you have additional questions.

PREFERRED DRUG LIST (PDL) FOR TENNCARE EFFECTIVE 1/1/10

TennCare is continuing the process of reviewing all covered drug classes. Changes to the PDL may occur as new classes are reviewed and previously reviewed classes are revisited. As a result of these changes, some medications your patients are now taking may be considered non-preferred agents in the future. Please inform your patients who are on these medications that switching to preferred products will decrease delays in receiving their medications. For medications with existing prior authorizations in place, each PA will remain active through the current expiration date. A copy of the new PDL will be posted January 1, 2010 to: https://tnm.rxportal.sxc.com/rxclaim/TNM/PDLtable.htm.

We encourage you to share this information with other TennCare providers. The individual changes to the PDL are listed below. For more details on clinical criteria, please visit: https://tnm.rxportal.sxc.com/rxclaim/TNM/CriteriaPDL.pdf

Below is a summary of the PDL changes that will be effective January 1, 2010.

- **Analgesics: NSAIDS:**
  - The following agent will be added as preferred: meloxicam. Additionally, the following agents will remain non-preferred: Aclovate®, Aclidex®, Capex®, Clobeh®, Clovex®, Clocem®, Cordran®, Cultivate®, Derma-Smooth/FS®, Dermatop®, Desonate®, Desoven®, Diprolene®, Diprolene AF®, Elocon®, Halog®, Kenalog®, LoKara®, Luxig®, Nucort®, Olux®, Olux/Olura E®, Olux-E®, Pandel®, Temovate E®, Texacort®, Topicort®, Topicort LP®, Ultravate®, Westcort®, Verdeso®, and Vanos®.

CC = Subject to specific clinical criteria
ST = Subject to specific step therapy criteria
QL = Subject to quantity limits
• Dermatologic Agents: Topical Retinoids:
  o The following agent will become preferred: Epiduo®. Additionally, the following agents will remain preferred: Avita®, Tazorac®, and tretinoin.
  o The following agents will remain non-preferred: Atralin® CC, Differin® CC, Retin-A® CC, Retin-A Micro® CC, Tretin-X® CC, and Ziana® CC.

• Dermatologic: Topical Antineoplastics:
  o The following agents will remain preferred: fluorouracil, Carac®, Fluoroplex®, Panretin®, Solaraze®, and Targretin®.
  o The following agent will become non-preferred: Efudex® 5% cream. Additionally, the following agents will remain non-preferred: Efudex® 2% solution, and Efudex® 5% solution.

NOTE:
All of the aforementioned changes, whether preferred or non-preferred, may have additional criteria which control their usage. Any clinical criteria associated with an agent are noted with a superscripted “CC” and any step therapy criteria associated with an agent are noted with a superscripted “ST.” Please refer to the document “Drug Criteria Listing” located at: https://tnm.rxportal.sxc.com/rxclaim/TNM/CriteriaPDL.pdf for additional information.

Changes to Prior Authorization Criteria (CC, ST, QL) for the PDL (effective 1-1-10)

<table>
<thead>
