44127	58660	BCBST	The edited code is redundant to the listed code to account for a laparoscopic case converted to an open procedure. When a laparoscopic service is attempted and fails and another surgical service is necessary, only the successful service is allowed. Note that it may be appropriate to reimburse the edited laparoscopy if it represents a distinct diagnostic service prior to the open surgical service and the decision to perform surgery was made on the basis of the laparoscopy, or if it represents a separate surgical procedure sufficiently unrelated to the open procedure and requiring significant additional work.
